BENEF 2009
LOT N° 10:
REQUEST N° 2012 / 293249

SPECIFIC TERMS OF REFERENCE
Trade-Related Technical Assistance II Programme in the Philippines
Final evaluation

1. BACKGROUND

The European Union (EU) strongly supports the developing and least developed countries' capacity to reap the benefits of international trade as a tool to spur growth, create employment opportunities and alleviate poverty. The EU does so in part through a Strategy on Trade, which allocates funds for countries around the world to increase the participation in international trade flows through a variety of means.

The Country Strategy Paper (CSP) for the Philippines (2007-2013) indeed established trade related assistance as one of its priorities in order to trade and investment flows. This is in the wider context of helping the Philippines in its economic, social and political reform processes. This trade priority was already reflected in the preceding Country strategy paper (2002-2006). The Indicative Programme 2011-2013 signed by the Philippine government and the European Union on 11 November 2010 confirmed trade as one of three non-focal sectors.

Following promising experience under the Trade-Related Technical Assistance (TRTA) Programme in its initial phase (2005-2008), a follow up project TRTA II was initiated. The Financing Agreement (DCI-ASIE/2007/018-950) between the EU and the Philippines entered into force on 23 August 2008 with an operational implementation period of four years until 22 August 2012 - and an estimated cost of EUR 7,475,000, of which EUR 6,500,000 and EUR 975,000 are to be contributed by EU and the Philippines, respectively.

It is implemented through partial decentralized management under which the National Economic and Development Authority (NEDA) is the contracting and paying authority for certain expenditures including for training, seminars, workshops and operating costs.

For technical assistance, EU remains as the contracting and paying authority and for which Entidad Colaboradora de la Administracion (ECA) has been contracted as Service Provider. The expected period of execution of the EU-ECA service contract is 46 months and shall not in any case go beyond 22 August 2012.

The Trade Related Technical Assistance Project 2 (TRTA 2) is a development cooperation initiative by and between the Republic of the Philippines (RP) and the Commission of the European Union (EU). The overall objective is "to support sustainable poverty reduction in the Philippines through further integration into the international trade system?". The specific purpose is "to enhance the capacity of selected Government agencies and state actors? for deeper integration into the system. It has four components: Capacity building for trade

Screenshot 3 -- Suche nach ähnlichen ExpertInnen über ähnliche Ausschreibungen: Expertenprofile, die zu einem ausgewählten Ausschreibungstext ähnlich sind, werden angezeigt. Aus dieser „Similar Experts“-Liste können Kandidaten für die Expertengruppe passend zur aktuellen Ausschreibung ausgewählt werden. Ähnliche Ausschreibungen werden über Text-Clustering ermittelt. Sobald ein neues Dokument geladen wird, wird es automatisch vorverarbeitet, mittels Lucene indiziert und mittels SemanticVectors einem Dokumenten-Cluster zugeordnet.

Screenshot 5 -- Suche nach ähnlichen Experten über Ähnlichkeiten zwischen CV-Dokumenten:
Neben dem Clustering von CV-Dokumenten erfolgt die Identifikation von ähnlichen Experten über die Bestimmung der Ähnlichkeiten zwischen den aus den CV-Dokumenten errechneten Keywords. Es können beliebige Experten in einer Experts Base zusammengestellt werden, für die das System dann automatisch ähnliche Experten (Similar Experts) aus der gesamten Expertenbasis in der ExpertSeek Datenbank berechnet, einzelne dieser Kandidaten können dann in die Candidates-Liste verschoben werden.

The screenshot displays the ExpertSeek web application in a Mozilla Firefox browser window. The page title is "Expert Seek - Demonstrator". The main content area shows a search result for "10263: Assistance II Programme / 018) seminars , workshops operating costs . For technical assistance It". Below this, there are tabs for "Undecided(3)", "teamleader(1)", "Technical Standards expert (junior expert)(1)", "SPS expert (junior expert)(4)", "Trade facilitation expert (junior expert)(2)", and "Trash(0)".

The interface is divided into three main sections:

- Experts Base:** Contains a list of experts. The first entry is "Knudsen, Torben", born 1942-06-20, from Denmark, speaks English and German, worked in Denmark, Albania, Kosovo, Tanzania and Ukraine. There are "CV" and "delete" buttons next to the name.
- Similar Experts (25):** A list of experts similar to the selected one. The first entry is "Gudoi, Richard", who speaks English, Luganda and Swahili, and is an audit, internal auditor, auditor, internal audit, internal.
- Candidates:** A list of potential candidates. The first entry is "Knudsen, Torben", born 1942-06-20, from Denmark, speaks English and German, worked in Denmark, Albania, Kosovo, Tanzania and Ukraine.

At the bottom, there is a search bar with the text "Find: all cap" and navigation buttons: "Previous", "Next", "Highlight all", and "Match case".

Screenshot 6 -- Team View: Die über die verschiedenen semantischen Suchen identifizierten Expertenkandidaten (Candidates) können über eine Team View von den SachbearbeiterInnen in perfect, good und fitting Kandidaten eingeteilt werden. Auch diese Information wird in der ExpertSeek Datenbank abgelegt, womit das durch menschliche ExpertInnen (die BeraterInnen) gesicherte Wissen in der DB stetig angereichert wird.
